

DIN RAIL ADAPTER FOR 4¼" x 4¼" MODULE PACKAGES**FEATURES:**

- G Profile or 35mm Compatible
- Ease of Mounting and Removal
- Rugged Aluminum Base Plate
- All Mounting Hardware Included

MODLE COMPATIBILITY:

- 46 Ethernet
- 48 Ethernet
- 49 Ethernet
- 50 Ethernet
- 480 Multi-Protocol Data
- 480(SL) Multi-Protocol Data
- 484 High Speed RS Data
- 486(SL) Panasonic PS Data
- 487(SL) Dual RS485 Data
- 89C-GE Commend Intercom
- M61 Video + Sensornet
- M1200B Video + Data
- M1400 Video + Data
- M1485 Video + Data
- M1605 Video + Data
- N-111 Network I/O
- N-TAH Network Environmental Monitor I/O Module

DIMENSIONS 5 ¼" x 5 ¾" x 1"**WEIGHT** 0.5 lbs**MATERIAL:**

Aluminum Base Plate
ABS Plastic DIN Clip

The DRBK-1 DIN Rail Mount Adapter allows for easy mounting of a large selection of AFI products onto standard DIN rails. DIN rails provide for simple mounting of a wide variety of electronic devices offering high density and simple maintenance. Spacing of rails also allows for proper handling of wire routing and management.

The supplied DIN clip is provided pre-mounted to the flange. Additional hardware is included for mounting the AFI module on the plate.

Once the module is mounted on the plate, the DIN clip is simple hooked onto the top flange of the DIN rail, pressed onto the lower flange and snapped into place.
