

NEMA Enclosure Kit to Accommodate Various AFI Modules and Power Supplies

FEATURES:

- ◆ Complete Kit Includes NEMA Rated Enclosure, Base plate, DIN Rails, and DIN mounted Power Connectors
- ◆ Supports All AFI Ethernet Products and most analog modules.

SPECIFICATIONS:

Enclosure:

Size.....14H x12"W x 6"D
 Material.....Polycarb
 Color.....Light Gray
 Temperature.....-35°C to +107°C
 Nema Rating.....4X&IP66
 UV rating..... (f1)
 -per UL 746C-UV stabilized Standards
 -UL Types 1,2,3,4,4X,12and13
 -CSA Types 1,2,3,3R,4,4X,12and13

Compatible AFI Modules

(see datasheets for details)

Mini-Switches, Media Converter

Series 48,49 (3 ports)
 Series 46,50 (4 ports)
 Series MX-6p (6 ports)

PoE Power Supplies, DIN Rail

PS-4830 (48Vdc/30W)
 PS-4860 (48Vdc/60W)
 PS-48120 (48Vdc/120W)

Digital Video with Ethernet

Series 91PXXXX8E

N-TAH

Environmental Monitor, Temperature, AirFlow, Humidity plus 2 Contact Inputs / Outputs

N-111

Network to Contact In / Out and Serial Data

The American Fibertek Enclosure Kit *ENC-1W* provides a complete set of components for assembling *American Fibertek field devices in secure weatherproof installations*. The enclosure kit includes a base plate which accommodates *most afi modules and has been drilled and tapped for easy mounting* (screws included), DIN rails (top hat rail EN 50022 – 35mm x 7.5mm), and DIN rail mounted power supply connectors.

The enclosure may be secured by padlocking the *stainless steel* snap latches. *Tamper proof screws are also available*. Enclosures may be wall mounted or pole mounted by ordering the optional *ENC-1P kit*.

ORDERING INFORMATION:

(Order the AFI modules and PoE power supplies separately)

ENC-1W Wall mount Enclosure Kit;
 Includes Nema Enclosure with base plate *drilled and tapped for afi modules*, DIN rail, and DIN rail power connectors.

ENC-1P Pole Mount Kit for the ENC-1W:
 Includes with 12" rigid mounting bracket and stainless steel straps.
